We give you many reasons to shop with us, including:

If you simply aren't sure what to get, check with a professional. Our customer service staff are trained to know how to compare batteries and they are happy to help find the right fit for your laptop.

Features:

Warranty: We promise that the **Laptop Battery , Laptop AC Adapter , Car Laptop Adapter , iPhone 4 4S Battery/Charger , LED Light , Power Bank , Memory Cards** sold in our website are 100% brand new - We never sell used or refurbished.

- 1.100% new high quality Replacement battery Compatible your laptops.
- 2.Provides excellent discharge characteristics.
- 3.30-Day Money Back,1 Year Extended Warranty for Laptop Battery.

- 4.Quick delivery for every order.
- 5.If you need any help or have any questions, please feel free to contact us.

To make your **Laptop Battery** last longer !

- 1.Leaving a **battery in a laptop** while using an electrical outlet for long periods of time will keep the battery in a constant state of charging up and that will reduce the life cycle of the battery.
2. For laptops that work as Desktop Replacement, the battery should be re-installed every 3-4 weeks and allowed to fully discharge.
- 3.Fully charge new battery packs before use. New pack needs to be fully charged and discharged (cycled) a few times before it can condition to full capacity.
- 4.Make sure to plug your laptop charger adapter into a UPS and not directly into a power outlet or surge protector.
- 5.If you have a nickel-metal hydride battery, completely drain and recharge the battery once a month to maximize its capacity to hold a charge.
6. If you do not use your laptop for extended periods of time (a week or more), remove the battery pack from the laptop.
7. Do not expose the battery to high heat or freezing temperatures. Do not leave your **battery** in your car in the summer. Hot batteries discharge very quickly, and cold ones can't create as much power.
